

# **Fort Resolution & Buffalo Junction Planned Outages May 5, 6 & 7, 2011**

The Taltson Hydro Plant will undergo a series of inspections, shutdowns and work from May 5-7. All South Slave communities served by hydro will be transitioned to diesel generation to ensure a continuous supply of power.

The transition to diesel generation will be seamless except for Fort Resolution and Buffalo Junction where manual start up of diesel and switch back to hydro will require two short outages each day.

The work is scheduled to take place as follows:

- 1) Thursday, May 5, 2011 – 1:30 pm to 9:00 pm**
- 2) Friday, May 6, 2011 – 9:30 am to 5:30 pm**
- 3) Saturday, May 7, 2011 – 9:00 am to 2:00 pm**

Only Fort Resolution and Buffalo Junction customers will be affected at the beginning and end of each work period.

We thank you for your cooperation and apologize for any inconvenience.
