

Taltson Maintenance Sunday, January 23

The Taltson Hydro Power Plant will be shut down on Sunday, January 23 around 7:00 AM to complete required repairs.

Fort Smith, Fort Resolution and Hay River customers will be served with diesel generation for several hours on Sunday while repairs are being completed.

No interruption in service is expected for Fort Smith or Hay River customers.

Customers in Fort Resolution will experience a brief outage before the repairs begin to switch to diesel service and again when repairs have been completed to switch back to hydro service.

We thank you for your cooperation and apologize for any inconvenience.
