

South Slave Region Electricity Service Interruptions Monday, August 16, 2010

On Monday, August 16, NTPC will conduct two tests at the Taltson Hydro Plant near Fort Smith. This will result in two **20-30 second interruptions, one around 9:00 AM and another around 10:30 AM**

All customers in **Fort Smith, Fort Fitzgerald, Fort Resolution, Pine Point/Hay River, Sand Hills and Buffalo Junction** will be affected.

Following the tests, NTPC will shut down the Taltson plant for annual maintenance and generate power using diesel engines until Friday, August 27. **We do not anticipate any interruptions during the transfer of generation from hydro to diesel.**

We thank all our customers for your cooperation.

If you have questions or concerns please contact our Fort Smith office at (867) 872-7100 OR call toll free: 1-800-661-0855.
